ACM UIST 2007 Call For Participation

20th ACM Symposium on User Interface Software and Technology
Newport, Rhode Island U.S.A.
October 7-10, 2007
www.uist.org

UIST is the premier forum for innovations in the software and technology of human-computer interfaces. Sponsored by ACM’s special interest groups on computer-human interaction (SIGCHI) and computer graphics (SIGGRAPH), UIST brings together researchers and practitioners from diverse areas that include traditional graphical & web user interfaces, tangible & ubiquitous computing, virtual & augmented reality, multimedia, new input & output devices, and CSCW. The intimate size, single track, and comfortable surroundings make this symposium an ideal opportunity to exchange research results and implementation experiences.

This year will be the 20th anniversary of ACM UIST. The advance program includes invited plenaries by David Woods (Ohio State University) and Jeremy Wolfe (Harvard Medical School), as well as 33 papers and technotes, demonstrations, posters, a panel, and a 20th Anniversary Interactive Visualization.

UIST 2007 will be held in the heart of historic Newport, Rhode Island, at the eighty-year-old Hotel Viking, one of the Historic Hotels of America.

Full conference details, including registration and lodging information, are available from http://www.uist.org/.

The deadline for early registration is September 7, 2007.

UIST 2007 will be co-located with the 2nd IEEE International Workshop on Horizontal Interactive Human-Computer Systems (TableTop 2007)

We look forward to celebrating 20 years of UIST with you at the historic Viking Hotel in scenic Newport, Rhode Island!

Chia Shen & Robert Jacob
UIST 2007 General Chair & co-Chair
